

NEW!

SAFE ENVIRONMENT AWARENESS SESSION OPTIONS

The Diocese of Reno is excited to announce that parents, volunteers, and employees in our parishes and schools will now have the option of taking the *Protecting God's Children Awareness* session training online or take a live session with a trained facilitator.

Step-by-step instructions to take the online training or a live training session can be found on the Diocese of Reno Safe Environment page using the following link

https://www.renodiocese.org/documents/2018/4/VIRTUS%20Online%20registration%20instructions_Reno_April%202018-1.pdf The online training will take 60-75 minutes to complete.

- Reading 24 monthly bulletins and taking a recertification review will continue to be required for employees and volunteers in both parishes and schools. School employees are to read bulletins for the duration of their employment.

PROMISE TO
PROTECT

PLEDGE TO
HEAL

BELIEVE IN THE POSSIBILITY OF HELP AND HEALING. THERE IS HOPE.

- All people are encouraged to read beyond their 24 bulletins because of the value of the contents. This is especially true when the constantly changing topic of internet safety is considered. Parents and others can glean pertinent and updated information regarding internet safety, including cyber-bullying, through continued reading of the bulletins.

- It is also important to note that background checks are now done online, simultaneously with registering for a live session or when taking an online Awareness Session.

If you need assistance, please contact Elda Juarez at the Diocese of Reno:

(775) 326-9445.
